# How to Modify/Setup the Display on a Prominent DCM5 Controller

## Step 1: Access the Display Setup Menu

1. Press the MENU button on the controller.

2. Use the **Up/Down** Arrows to navigate to System, then press **OK**.

3. Scroll down to **Display Setup**, then press **OK**.

## Step 2: Select I/O Points for Display

Ensure that Scrolling Display is **NOT** enabled

- If scrolling is enabled, **press F2** (SWITCH) to disable it.

1. **Press F3** (NEXT) to proceed to the next configuration step.

2. **Press F2** (ADJUST) to modify the I/O points displayed on the home screen.

3. Use the Up/Down Arrows to locate an I/O point for the top-left corner of the display.

4. **Press F1** (SELECT) to confirm the selection.

5. **Press F2** (NEXT) to choose the next I/O point.

6. Repeat this process for all display slots as needed.

- If setting up a dual body controller, you will set up the first body of water on the left (Usually CL/ORP, pH, and Temperature are set, but any can sensor can be displayed) and the second body of water on the right.

## Step 3: Finalize and Save Settings

1. Once all I/O points are selected, the changes will be applied.

2. At any time, you can press the **ESC** key to exit without saving.
