Setting up Notifications in VivoPoint

Notifications can be set up to be received by email, text or both. Every manager/member can set up their own notifications and managers can set up notifications for members attached to their properties. Notifications are completely customizable to your property needs.
1) Log into VivoPoint www.vivopoint.com
**2)** Click on the property under location on the left side of the screen.

PROPERTY GROUPS

All Property Groups

LOCATIONS

3) At the very top click on notifications

Vivo Hotel (Demo)   96

SYSTEMS   TEAM   CHARTS   REPORTS   PROFILE   SERVICE ORDERS   NOTIFICATIONS

4) Click on Use Defaults next to all the bodies of water. This will bring the notification screen from gray to bright.

*Add new allows you to set up a new notification like manual readings

Add New   Use Defaults
5) Once the notification screen is bright you will start to receive notifications. To edit the notification click on the pencil button under each notification.
